Date:

HONOR FOR MAINE CLUBWOMEN'S GROUP

Pownal Buildings to Be Dedicated to Federation

YORK HARBOR, Maine (AP).—The president of the Maine Federation of Women's Clubs told her New England colleagues Tuesday that a group of buildings at a state institution will be dedicated to her group.

Mrs. William H. Berry of Gorham said that the "Federal Village," part of the Pineland Hospital and Training Center for the mentally retarded at Pownal will be dedicated Oct. 12 to the MFWC in recognition of its work in the mental health field.

Mrs. Berry reported at the state president's panel of the New England Federation of Women's Clubs meeting that the Maine group has contributed \$30,000 to charity and to organizational work in the past year.

Mrs. Dexter Arnold of Concord, N. H., urged the federations to seek new clubs and thereby increase membership by a minimum of 20 per cent a year.

Maine's only remaining Republican senator, Margaret Chase Smith, was the main speaker of the day.

She reminded her listeners that wars are started from "lack of knowledge, faulty evaluation or faulty interpretation."

In the course of her discussion she rapped the Central Intelligence Agency, saying the U. S. has too often been caught off guard.

"Either CIA didn't have the knowledge it should have had or it didn't get it to the key authorities," she commented.
